

uni

```
graph LR; uni[uni] --- biblioteca[biblioteca]; uni --- controller[controller]; uni --- main[main]; uni --- model[model]; uni --- util[util];
```

The diagram illustrates a software package structure. A large, light blue rectangle with a dashed border represents the 'uni' package. Inside this rectangle, at the top center, is the label 'uni'. Below this label, there is a solid black rectangular frame. Inside this frame, the word 'biblioteca' is positioned on the left. To its right, four smaller, light blue rectangular boxes are arranged horizontally, each containing the text 'controller', 'main', 'model', and 'util' respectively. These boxes represent sub-packages or modules within the 'uni' package.

biblioteca
